

## School Programs Intern

### Internship Description:

School Programs Interns work with a dedicated group of Aquarium team members, volunteers and South Carolina teachers and students from across the state. School Programs Interns dedicate two or more days each week from 9 a.m. to 1 p.m., to Education Programs at the Aquarium. Interns are responsible for teaching small groups of K- 12 students about the rich and diverse aquatic habitats of South Carolina. The ideal candidate has a background in science and some experience working with children, although training is provided. A School Programs Internship combines the best practices of learning and fun in one remarkable experience.

### Commitment Required:

- 9:00 AM – 1:00 PM, Weekdays

### Education Requirements:

- Major(s): Biology, Education
- Classification: Sophomore, Junior, or Senior
