

Animal Care Intern, Aquarist

Internship Description:

The Animal Care Intern will gain valuable experience through this internship by learning proper husbandry techniques for a diverse collection of fresh and salt water animals through one-on-one training and hands on experiences. The intern will assist staff with all aspects of daily animal care.

Primary responsibilities will include but not limited to:

- Exhibit and behind the scenes cleaning
- Daily food preparation and feeding
- Record keeping
- Animal observation

Potential duties may include but not limited to:

- Veterinary procedures
- Quarantine procedures
- Animal collection and transfer

Learning Objectives:

- Follow Aquarium safety and animal protocols
- Learn and follow proper feeding procedures and techniques in caring for animals, and ensure daily care of animals
- Learn life support system operation and how to maintain tanks, and follow schedule of weekly tank maintenance
- Be able to state appropriate water quality parameters
- Be able to recognize signs of disease and understand the purpose of quarantine

Qualifications, Skills, Knowledge and Abilities:

- College sophomore, junior, or senior preferred
- Any major in natural sciences or psychology
- Must be dependable and have excellent communication and record keeping skills
- Be comfortable with informal educational interactions with Aquarium guests
- Be able to work well independently and as part of a team
- Willingness to get wet and dirty

Commitment Required:

- 32-40 hours per week
- 3 months to 6 months (6 months preferred)

Compensation:

- Unpaid; housing not included
- College credit may be available through your university

Benefits:

- Professional development workshops
- Potential field experience opportunities
- Ability to earn aquarium tickets and a reciprocity pass to area attractions
