

Conservation Stewards

The South Carolina Aquarium Conservation Stewards are a nationwide community of annual, philanthropic supporters who invest in sustaining the powerful education and conservation programs that animate the Aquarium locally and across the globe. Members of this giving society support the efforts of the Aquarium to preserve South Carolina's natural treasures, conserve habitats and connect individuals to the wonder of the natural world.

Our programs are made possible by the generous support of Conservation Stewards, who make annual contributions above and beyond the cost of a regular membership. You are invited to deepen your connection with the Aquarium and make an impact that reaches far beyond the Aquarium's walls by becoming a Conservation Steward.

Conservation Stewards receive unlimited access to the Aquarium and exclusive invitations to special events throughout the year, designed to connect you to water, wildlife, wild places and one another.

In appreciation of your contribution, the following benefits will be extended:

\$300 - \$499 (or \$25 - \$42/month)

- Access to the Aquarium for one or two listed adults in your household and all listed children or grandchildren under 18, plus two guest privileges. Guests must visit with the primary listed adult(s), children or grandchildren, as access is non-transferable.
- Special invitations to Conservation Stewards exclusive events.

\$500 - \$999 (or \$43 - \$84/month)

- All of the above; plus
- Private behind-the-scenes tour for your household and guests annually (ten people maximum)*

\$1,000 - \$1,499 (or \$84 - \$125/month)

- All of the above; plus
- An invitation to one Watershed Society event per year

**Please schedule at least three days in advance.*
