

STEM Challenge: Grade 2

2-ESS2-3 – *Obtain information to identify where water is found on Earth and that it can be solid or liquid.*

How are bodies of water connected to one another? Why is water important to an ecosystem, regardless of what form it is in?

2-LS4-1 – *Make observations of plants and animals to compare patterns of diversity within different habitats.*

Pick a habitat (exhibit) at the Aquarium. How do the animals interact with one another?
