

STEM Challenge: Grade 4

4-LS1-1 – *Construct an argument that plants and animals have internal and external structures that function together in a system to support survival, growth, behavior and reproduction.*

Pick a plant or animal and explain how its structure or parts help it survive.

4-ESS2-1 – *Make observations and/or measurements to provide evidence of the effects of weathering or the rate of erosion by water, ice, wind or vegetation.*

Pick a plant or animal and explain how it impacts its environment. How does its environment impact the plant or animal?
